

St. Columba's Episcopal Church Big Bear

The first of a series of testimonials
from our congregation.

I've been going to St. Columba's for many years now. My husband of seven years and I are not only accepted at St. Columba's, but we are very much loved. There is no judgment as to anyone's lifestyle or belief system. There is no guilt or

shame preached in our church; nor is there any talk about hell or damnation. We are like a loving family. I just finished six chemotherapy treatments for lymphoma. I was extremely sick. The church members not only prayed for me, but brought home-made food dishes to help me gain weight back. I received Get Well cards from nearly every member of the church. With their love and prayers (and my treatments) I have beat this cancer. They helped me keep my spirits up the entire time. Come experience for yourself the love at St. Columba's Episcopal Church, by Alan Gurzenski-Lukes.
